

Mengeset attendance

The screenshot shows the top part of a Moodle course page. At the top left is the logo for Universitas Sanata Dharma Yogyakarta. To its right are links for '+ Video Tutorial' and '+ Kontak Admin'. On the far right are icons for a globe, chat, and notifications. Below the header is a banner image of a clock with the text 'TIME TO 5 MINUTES'. The main content area contains several lines of text: 'We are going to see the group presentation from the shared ppt. Presenters, please share the ppt i the forum group.', 'Have the discussion session in the forum activity.', 'Enjoy the learning.', and 'Stay safe, healthy and happy, and stay at home.'. A red box labeled '1' is drawn around the text 'Have the discussion session in the forum activity.'. A red arrow points from this box to the 'Add an activity or resource' button located at the bottom right of the text area. Below the text area are two topic sections, 'TOPIC 8' and 'TOPIC 9', each with an 'Edit' button and an 'Add an activity or resource' button. A 'Hidden from students' button is visible under Topic 8. The bottom right corner of the page shows the time '13:46'.

The screenshot shows the 'Add an activity or resource' dialog box overlaid on the course page. The dialog box has a title bar with a close button. On the left side of the dialog is a list of 'ACTIVITIES' with radio buttons next to each item: Assignment, Attendance, Chat, Choice, Database, External tool, Feedback, Forum, Glossary, Lesson, Quiz, and SCORM package. A red box labeled '2' is drawn around the 'Attendance' option, and a red arrow points from it to the 'Attendance' item in the list. On the right side of the dialog, there is a text area with the instruction: 'Select an activity or resource to view its help. Double-click on an activity or resource name to quickly add it.' At the bottom of the dialog are two buttons: 'Add' and 'Cancel'. The background of the course page is dimmed, and the 'Add an activity or resource' button from the previous screenshot is visible in the background.
